PROFESSOR WOOD'S

HAIR RESTORATIVE.

It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their locks are concerned, does not admit of doubt besides, it will cure every possible disease of the scalp whether developed as dandruff, itching, or in the shape of cutaneous eruptions—even scald head—and in no possible case will it fail of curing, as if by magic, nervous or periodical Head ache, and if used twice a week by the young regularly it will preserve the color and keep the hair from falling to any imaginable age Read and judge

MILLFORD, Worcester Co , Mass Nov 1855

PROF O J WOOD—Dear Sir —I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative As far back as 1836, my hair commenced falling off until the top of my scalp became bald and smooth as glass and it has continued to fall for a great many years notwithstanding I have used many celebrated preparations for restoration Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment, found, after a few applications, that my hair became firmly set and assumed a glossy and beautiful appearance and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair which is now from one to two inches and a half in length and growing fast

Yours truly
HENRY GOODRICH

CHARLESTON Mass Aug 9, 1855

GENTS —Nothing but a duty and sympathy that I feel to communicate to others that are afflicted as I have been will induce me to give this public acknowledgment of the benefit I have received from Prof Wood's Hair Restorative When I first commenced using it my hair was quite gray, and in spots entirely bald I have now used the Restorative about five months and my hair is entirely changed to its original color brown and the new hair is over three inches in length on the spots where it was bald I have also been much gratified at the healthy moisture and vigor of the hair which before was dry, and it has ceased to come out as formerly

Respectfully yours &c.
MRS R A STODDARD

From Mrs Ingalls a well known nurse in Boston.

BOSTON, Oct. 19 1855

GENTS —At your request and being so highly pleased with the effects of the Restorative, I am free to state that my hair had become quite thin and entirely *white* I have for the last five years been in the habit of using dye but hearing of the extraordinary effects of this article, I was induced to try it. My hair has been restored to its original thickness and also to its former color, which is light brown

Yours respectfully
MRS INGALLS

The following is from the Pastor of the Orthodox Church Brookfield —

BROOKFIELD Mass Jan 12 1855

PROF WOOD—Dear Sir—Having made trial of your Hair Restorative it gives me pleasure to say that its effects have been excellent in removing inflammation dandruff and a constant tendency to itching with which I have been troubled from my childhood and has also restored the hair which was becoming gray to its original color I have used no other article with anything like the same pleasure and profit

Yours truly
J K BRAGG

(From the Jersey City Telegraph)

WHAT IS IT FOR—THIS WOOD'S HAIR RESTORATIVE ?—Is a question asked daily by hundreds We answer without hesitation or fear of contradiction that it is the only article known which will do all it promises for the human hair *It will renew its growth—it will stop its falling—it will restore its natural color!* It is not a hair dye, but a speedy and efficacious Restorative

PROF. WOOD'S

HAIR RESTORATIVE!

WE CALL THE ATTENTION OF ALL, OLD and YOUNG to this wonderful preparation which turns back to its original color gray hair—covers the head of the bald with a luxuriant growth—removes the dandruff itching and all cutaneous eruptions—causes a continual flow of the natural fluids and hence, if used as a regular dressing for the hair, will preserve its color and keep it from falling to extreme old age in all its natural beauty We call then upon the bald the gray or diseased in scalp to use it and surely the young will not as they value the flowing locks or the witching curl ever be without it. Its praise is upon the tongue of thousands.

Watertown Mass. May 1 1856

PROF O J WOOD All ow me to attest the virtues and magic powers of your Hair Restorative Three months since being exceedingly gray I purchased and soon commenced to use two bottles and it soon began to tell in restoring the silver locks to their native color and the hair which was before dry and harsh and falling off now became soft and glossy, and it ceased falling the dandruff disappeared and the scalp lost all the disagreeable itching so annoying before and now I not only look but feel young again Respectfully, yours, etc

CHAS WHITNEY

PROF O J WOOD—Dear Sir After reading the advertisement in one of the New York journals of you celebrated Hair Restorative I procured a half pint bottle and was so much pleased with it that I continued it for two months and am satisfied it is decidedly the best preparation before the public It at once removed all the dandruff and unpleasant itching from the scalp and has restored my hair naturally, and I have no doubt permanently so

You have permission to refer to me all who entertain any doubt of its performing all that is claimed for it

LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician

IS it not a truth that when the feet are often wet it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks but when it is water proof this is remedied By the application of this preservative, it remains soft, and entirely impervious to water

After being engaged for 25 years in the manufacture of Leather in all its branches and being often troubled with wet feet myself I was led to experimenting on different compositions, and found it easy to make it water proof but at the same time extremely injurious to the leather At last by a chemical process I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned It will not only make leather water proof, but it likewise softens the leather and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery with my boots constantly in water and have not had my feet wet during that time I can therefore in all confidence recommend it to the public as the best article in the market

A General Law for Manufacturing Corporations. It will be seen that Mr Strickland has introduced in the Legislature, a bill authorizing any three or more persons, to form a Company for the purpose of carrying on any kind of manufacturing business, and to have the powers and enjoy the rights and be subject to the liabilities of an incorporated company, by certifying to the Secretary of State the name assumed to distinguish such company, the amount of its capital stock, &c., and by recording the same in the Registry of Deeds for the county and (we presume) publishing the same. The bill is an important one, and we trust will receive the favorable attention which it deserves. It is intended for the encouragement of small manufacturing establishments—and in connection with a more just and liberal policy in reference to the liability of stockholders, such a law would undoubtedly give birth and impetus to many an industrial enterprise, whose benefits the mechanical and laboring population would very sensibly feel, and which benefits must of necessity be largely shared by the agricultural interests, in the increased and more available markets for farm produce which always spring up immediately in the neighborhood of every considerable manufacturing establishment. We think the disposition is now generally to favor some vigorous efforts in behalf of home industry in Maine, and that these proposed changes in our legislation will meet with the approbation of the people.

The appointment of Moses McDonald to the Collectorship of Portland, is quite as significant of the influences which rule at Washington, as the appointment of Marshal Freeman of Boston. McDonald was the only man in Congress from Maine who could be found to vote for destroying the slavery restriction of the Missouri Compromise. He was boldly treacherous to freedom, and now has his reward from the national administration. It is safe to say that Moses McDonald could not receive one third of the votes of the *people* of Maine for any office whatsoever, and that his appointment is directly in opposition to the wishes of an immense majority of voters in his own district and in the State at large.—And yet modern *democracy* sanctions his appointment, peculiarly obnoxious as it is. We were promised by our candid 'national' democrats that Mr Buchanan's administration would not, at any rate discriminate *against* Northern sentiment but it has been done, in the cases of both McDonald and Freeman.

Rhode Island Election. Sham democracy was nearly wiped out in Rhode Island by the election of last week. The total vote for Governor was, for Dyer, (Republican) 9600, Potter (Democrat) 4300—more than two to one against the bunkers. The Republican or Union gain over last year is 1621.

For Lieut. Governor there was one democratic candidate, and two opposed, so that Mr Turner the Republican failed of a choice by the people. He will be chosen by the Legislature. The State Senate and House are almost entirely filled by the Republican and American Union candidates. Thus

Last Chamber Concert. It will be seen by advertisement that Mr Tracey and Mrs. Bradley will give the fifth and last of their course of Chamber Concerts, at their rooms in Exchange Block, this (Monday) evening. These concerts have been very successful, and have given great pleasure and gratification to the musical people who have attended. An instrumental Trio in G. from Mozart is on the programme for this evening.

Bears Killed. Gen. David C. Archer of Jonesboro, a few days since, killed in the vicinity of his house two bears—a large and a small one. He had a dog with him and only an axe as a weapon of attack, but between the two the business was done effectually.

Burned to Death. On Thursday night last, Mrs. Hannah Berry, residing near Saerburn's Corner, about four miles from the city, on Six Mile Falls road, was so badly burned that she died on Friday. The neighbors knew nothing of the occurrence until Friday morning,—when it was found that Mrs. B. was very badly burned. She stated that she waked up in the night and found the bed-clothes almost burned up, and her own night-clothing on fire. The bed stood near the fire-place. As near as can be ascertained, Mrs. B. and her husband were not in a condition to realize the extent of her injuries, and neglected to call for assistance. It is said that the husband came home intoxicated and did not know how badly she was injured, although her clothing was all burned off. The neighbors sent for Dr Seavey as soon as the case was known—but the woman's life could not be saved.

The Kalloch Trial. The testimony for the prosecution closed on Thursday. It is unnecessary to say that the principal government witnesses swore strongly against the defendant. The effort of the defence will be to to prove the bad character in general of the Lechmere House, and particularly to impeach the witnesses.

Among other items reported on Thursday were the following

Jared Shephard was at the Unitarian Church on the night of the 5th of January, and saw Mr. Kalloch and a lady with him. Mr K. asked Mr. S. "to give my lady a seat." Mr. Lemmon, from the Grand Jury, testified that the name of the lady with Mr Kalloch was not mentioned before the jury.

Mrs. Kalloch was in at the second session of the Court with her husband.

The defence had 60 witnesses sworn, eight of whom were ordered to stay out of the Court Room during the examination of other witnesses.

The first witness was Edward Gould, stable keeper, who let Mr Kalloch a horse on the 5th of January. The defence endeavored to prove from him by Mr Kalloch's statements Mr Kalloch's motive in having a close carriage. Gould testified that Mr. Kalloch said he was going to Mr. Holland's with two ladies, and that the time occupied in going from Boston to East Cambridge would be 20 or 30 minutes.

John Reynolds, the hackman who drove Mr Kalloch to East Cambridge, testified that he left the stables for Mr K's house at 20 minutes past 6. He was ordered by Mr K. to drive to the first hotel over the bridge. He was on the way about half an hour, and after he arrived went to Mr Holland's carrying the note and message as narrated in Mr Holland's testimony.

The witness said he drove away from the church about twenty minutes past 9 o'clock, and was ordered by Mr K. to stop at the hotel 15 or 20 minutes. He put up his horses, went into an oyster saloon and staid 20 minutes, thence went into the stable and was told Mr K. had sent for him. Got home about 10 or 20 minutes past 10.

On Friday, the defence introduced testimony to break down the character of the landlords of the Cragie House, Bailey and Griffin, and also Mrs. Griffin, by showing that Bailey had been guilty of indecent exposure in Manchester, and that Mr and Mrs. Griffin had occupied the same room at the Fountain House in this city previous to marriage. One or two of the witnesses for the defence repeated conversations they had had with Bailey and Griffin relative to the matter, agreeing substantially with the account published of their evidence. Mr W. G. Crombie testified, that some time since Giddings (the fare-taker) had said to him, "I would now rather have my right arm cut off than not have Mr Kalloch convicted." Previous to this testimony of Mr Crombie's, Giddings had sworn positively that he had not made any such remark. The testimony of various persons were given to the good moral character sustained by Mr Kalloch at Rockland, although they admitted that reports against it had been circulated.

The telegraph informs us that the testimony in the case was taken on Saturday, and that the arguments would be commenced to-day (Monday.)

Bushire, recently captured by the English, is situated in Fars, or Farsistan, the province of Persia known by the ancients as Persis. The name of the town is really Bender Abouschehr. It is situated on a tongue of land once covered by the waters of the gulf, and is defended on the land side by a high wall flanked with towers. This port, which is the most important of Persia, manifests none of the activity that characterises European maritime towns. The majority of the vessels which navigate the Persian Gulf touch at Bushire and Bassora, in order to land or take in goods. This trade does not however give employment to more than eight vessels under the English flag, and six under the colors of the Imaum of Muscat. These vessels form a tonnage of about 4500 tons. The town of Bushire contains about 400 houses, besides a great number of huts constructed of palm leaves, erected outside the walls. The number of inhabitants, stated by some travellers to amount to 20,000 has been considerably reduced by plague, cholera, and other scourges, of which Farsistan has been the theatre, and at present does not probably surpass 5,000 souls. Karrack, or Kharedj, the island now occupied by the English, contains an excellent port, good wells of fresh water, and is capable of being strongly fortified. In a commercial, political, and military point of view, Karrack is of high importance. Up to the present moment, the island has been known only for its lucrative pearl-fisheries.

[illegible] Railroad Accident. Upon the Boston and Concord Railroad on Monday, as the last passenger train was coming down, a Hooksett teamster had possession of the track with his load of two large pine masts. The fireman jumped off before the concussion without injury. When the engine struck the logs it broke them as readily as if they had been pipe stems. The engine and two of the cars were broken slightly, but no person was injured.

A Reminiscence. The New York correspondent of the Milwaukie Sentinel, in a strong letter upon the late Dred Scott decision, recalls the following interesting incident touching that class of inhabitants who, according to Chief Justice Taney, "have no rights which a white man is bound to respect"

During the Revolutionary war there were whole regiments of colored troops. Rhode Island had a colored brigade, in which, if I am not mistaken, the illustrious Greene served in his early career. In the second war with England, companies of colored men were mustered into the service of the United States in this city, and I well remember that, on the return of the U. S. frigate United States, with her prize, the British frigate Macedonian, when the Corporation gave a feast to the whole ship's crew, as the gallant fellows marched up Broadway, a band of some eight or ten stalwart black men, marching in a body, struck my eye. There were other blacks in the procession, scattered here and there, but these were all together. Having an opportunity to ask Commodore Decatur the reason of this, he said "this group was the complement of a particular gun—that certain men were assigned to each gun—that they became proud of their guns—gave names to them, and that great emulation among the competitor the[illegible] arised. As to these black men, their gun was called 'Black Beef'—and a more quickly handled, surely aimed and efficient gun, he had not in all his broadside."

The China Difficulty.—The Washington correspondent of the New York Herald writes:—

I understand that Lord Napier, the new British Minister, has already had two interviews with Gen. Cass on the subject of China, and that England expresses the greatest solicitude for the United States to take part in the struggle, which it considers the greatest contest of commerce and civilization in that quarter of the world. It is understood that England and France being united on the Chinese question are willing that the United States should have full swing on this continent—that they should have their bellyfull of the Monroe doctrine down even to Cape Horn—provided we appreciated our proper position on the China question.

Despatches have been received here by Lord Napier, urging him to obtain, if possible, the concurrence and aid of this government in effecting a peace in China by a commercial treaty abrogating the restrictions the Chinese have hitherto so rigorously enforced against other nations.

The following is an extract of a letter from a well informed source in London, to the *National Intelligencer*.

It will be fortunate for all, and especially for China, if the United States should join us in settling the present question. You have a large interest in the matter, and you cannot well stand aloof; you may not make war, but you can help us to make peace, and you may be assured that your co-operation is earnestly sought by England and France.

It is not the wish, nor would it be for the interest of England, if she has the desire, to seek of China any exclusive privileges. What she will demand, at the door of Pekin itself if necessary, must be demanded *for the good of all the world*, and it is to be hoped that the great commercial nations of the West will present their joint moral influence to bring the Chinese to an adjustment without any loss of blood or of credit.

It will be well for your merchants to know these facts in order to counteract in some measure the usual non-committal policy of your government. To refuse to co-operate with England and France in the present crisis would be to enrol the United States among the barbarians. You cannot honestly refuse to co-operate in making peace; you must use your influence for the benefit of your trade, and for the benefit of your Chinese friends. We are actively sending forward the materials of war for peaceable ends, and we trust the United States will do the same.

The Kennebec is clear of ice at Waterville. Also at Augusta and Hallowell. It was expected on Saturday that the river would be clear in a day or two.

Senate.—Resolve to change the location of Calais Academy Grant, came from the House, that body non concurring with the Senate in its indefinite postponement, and recommitting the same. The Senate refused to recede, and voted to *adhere* to its former action.

The President laid before the Senate a communication from the Hon. Daniel Goodenow, one of the Justices of the Supreme Judicial Court, answering in the affirmative the question proposed by the Senate on the 26th ult., in relation to the suffrage of the colored citizens of Maine.

Reference to next Legislature on petition of Dan'l W. Bradley.

Mr Brown presented remonstrance of G. K. Jewett and 26 others, against any amendment to the act reported by the Railroad Committee for the extension of the Bangor, Oldtown & Milford Railroad. Also the remonstrance of Arad Dudley and 65 others, against any further extension of the Bangor, Oldtown & Milford Railroad.

Leave to withdraw on petition of Theophilus Cushing and others.

Joint Special Committee on time of adjournment, reported that all the business before the Legislature could be transacted so as to permit an adjournment, *sine die*, on or before the 15th inst.

Mr [illegible] moved to amend by inserting [illegible]—the amendment was adopted.

Mr Hallowell, from Committee on Interior Waters, reported bill—an act to incorporate the East Branch Boom Company." Read once and to-morrow assigned.

House. Act laying a tax on the several counties of the State, came from the Senate amended by increasing the tax on Sagadahoc county $500, and reducing the tax on Penobscot from $26 000 to $22 000, and the House accepted the amendments in concurrence, and passed them to be engrossed.

Bill to incorporate the Free State Bank, was taken up, and amended so as to make the name of the bank the Norombega Bank, and passed to be engrossed.

Bill to reduce the capital stock of the Kenduskeag Bank, being amended was passed to be engrossed.

Bill to incorporate the Maine Bank was amended so as to make the capital stock of the Bank $75,000 instead of $100,000, and laid on the table.

The opinion of the Supreme Court in the Dred Scott case has the operation—if for that purpose it is to be regarded as law—of interfering with the local construction given by the Courts of Rhode Island and Maine to the Constitutions of those States. In both Maine and Rhode Island the right of suffrage is confined, by the terms of the State Constitutions, to citizens of the United States; but this has never been construed as depriving colored natives of those States of the right to vote. The Supreme Court of the United States has heretofore conceded to the State Courts the right of interpreting their own Constitutions and statutes, and as the question raised in Maine relates only to a right to be exercised exclusively under the laws of Maine, we do not see why the authorities of that State should abandon their own settled construction and drive the people to the trouble of amending the State Constitution, merely to comply with the humor of the slaveholding majority of the Federal Court.

N. Y. Tribune.

An anti-garrote collar has been invented: it is made of iron, and a knife-blade is hidden, so that when a garroter seizes the neck of an unsuspecting wearer of the collar, his fingers are speedily lacerated. That gentry will need a good deal of tact in pursuing their occupation.

An Extensive Marine Enterprise. Mr R. D. Bartlett, of this city, is now engaged in a very extensive enterprise, involving a large outlay of money and labor. Having purchased the iron steamship Philadelphia, which was wrecked and sunk a year or more ago, near Cape Race, Newfoundland, he is now preparing an expedition with the apparatus for raising her. For this purpose he has now in construction, just below the steamboat wharves, a large steam scow. This vessel is built very strong, is 100 feet long, 27 feet wide, 7½ feet deep, of 200 tons burthen. On deck she has a spacious cabin capable of accommodating a large number of men. She has side wheels, and is to be propelled by two double engines, with four 16 inch cylinders, in all 200 horse power. The vessel is already near completion, and is a novel specimen of steamboat architecture, being constructed for great sustaining power. The engines, shafts, &c., have been in hand during the winter at the machine shop of Mr Bartlett on Broad Street, are nearly finished, and are excellent specimens of workmanship. The boilers are made at Lewiston. This vessel will be ready for launching in a few weeks.

Besides this steam scow there are also to be constructed, in the same locality, twenty-five caissons, or huge boxes, each thirty feet long, ten feet wide, and seven feet deep, to a[illegible] capable of sustaining a weight of fifteen hundred tons. These are to be made very strong and are to be fitted on their upper surface with windlasses and other necessary apparatus for lifting. They will be taken in tow by the scow to Cape Race, and be used in connection with it for raising the sunken ship. The submarine apparatus is in a state of forwardness at Boston, and it is expected that the expedition will be ready to leave our city by the first of June. Fifteen or twenty experienced mechanics will accompany the expedition, and other laborers will be obtained at Newfoundland. The whole cost of the outfit will be about $30 000.

This undertaking is creditable to the enterprise and skill of Mr Bartlett, who has no superior as a practical machinist. He is perfectly confident of success, and it is to be hoped that he will reap the reward due to his energy and genius. The wreck of the steamship Philadelphia lies about ten miles north of Cape Race, and at low water her stern is visible.—Mr Bartlett has visited the spot, made all the necessary calculations, and has been at work since last December in the prosecution of the means of effecting his object.—*Journal.*

Suit for Libel. It is reported that Erastus Brooks of the New York Express, has brought a suit against the publishers of the Kennebec Journal to recover damages for an alleged libel contained in an article written by James G. Blaine, one of the editors of that paper, and published in the month of November last.—Suits of this character for mere political articles have never been pecuniarily successful to those who institute them.

The suit is brought in the U. S. District Court of Maine, and is set down for trial in this city on the 23d inst. Hon. Phineas Barnes is attorney for the plaintiff, and Hon. W. P. Fessenden and Hon Lot M. Morrill will appear for the defendants. As the case is one which allows a very wide range of facts and pleas, particularly of a political character it will no doubt elicit very great interest. It is not improbable that it may be the subject of an appeal to the Supreme Court at Washington, in which event the *law of libel* and the *freedom of the press* may be as elaborately discussed by the learned judges as were the issues involved in the Dred Scott case, though it is to be hoped with more regard to the true principles of liberty.—*Portland Advertiser.*

Trial for Murder. The trial of Mott for the murder of an Irishman at Kendall's Mills last fall took place at Norridgewock last week and resulted in a verdict of manslaughter.—Mott was sentenced to the State Prison for seven years. The trial occupied three days.—*Clarion.*

Nearly 200 white women and children were collected together in two houses in Mecklenburg county Va., last week, and guarded by a few faithful slaves, armed with axes, hoes, &c., while the white husbands, fathers, brothers and lovers marched to meet 250 negroes, who it was reported had risen and murdered several families about five miles above Pinksville. They soon found out that the rumored insurrection was a wicked hoax.

Shocking Case. In Philadelphia, recently, a little child was taken before an Alderman for the offence of stealing a top, and committed to Moyamensing Prison, and it was further stated that the boy screamed so after being taken to jail that he was put into a dark cell.

A new Post Office has been established at South Penobscot, and Edward Wight appointed postmaster.

Mr Samuel Turner died in Yorkville, S. C., on Thursday, aged 98 years, and on the next Saturday his maiden daughter Sarah, aged 72 years, died; she had been his comfort and support throughout her life, and in his death her mission was ended.

A negro woman in Boston, on last Sunday, gave birth to two living infants, one white and one black, or one an infant citizen, and the other an alien.

The most important discovery ever made in Medical Science, being a compound of Barks and Roots which forms the most powerful, safe and agreeable physic ever offered to the public.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in contrivance and workmanship. A perfect Sewing Machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire *reliability* of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

New machines, of the latest improved style will be exchanged on liberal terms for old sewing machines, of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

THE GREATEST

MEDICAL DISCOVERY

Of the Age.

Dr. KENNEDY, of Roxbury, has discovered in one of our *common pasture weeds*, a remedy that cures

EVERY KIND OF HUMOR;

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another, after a trial it always speaks for itself. There are two things about this herb that appear to me surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get, and enough of it.

DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years dessert spoonful—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine Establishment of H. H. HAY, 15 & 17 *Market Square, Portland, Maine*, to whom all orders should be addressed. Sold by respectable Druggists throughout the United States and British Provinces.

PRICE $1.00.

ONLY ONE BOTTLE

—OF—

DR. SANFORD'S

INVIGORATOR OR LIVER REMEDY!

IS REQUIRED TO CURE ANY ONE TROUBLED with Liver Complaint, unless the most desperate of cases, when the second bottle will, with scarce a single failure, restore the patient to health and vigor. We wish to call the attention of all to these facts, that the Invigorator is compounded by a physician, who has used it in his practice for the past 20 years, with a success almost incredible, and that it is entirely vegetable, being composed wholly of gums. Some idea of the strength of these gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of calomel, without any of its deleterious effects.

One bottle is the surest thing known to carry away the bad effects of mineral poison of any kind.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice, removes all yellowness or unnatural color from the skin.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring will prevent nightmare.

One dose taken at night loosens the bowels gently and cures costiveness.

One dose taken after each meal will cure dyspepsia.

One dose of two teaspoonful will always relieve sick headache.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves cholic.

One dose, often repeated, is a sure cure for cholera morbus, and a sure preventive of cholera.

One dose taken often will prevent the recurrence of bilious attacks, while it relieves all painful feelings.

One or two doses taken occasionally is one of the best remedies for a cold ever known.

Thousands of Cases of inflammation & weakness of the lungs have been cured by the Invigorator.

One dose taken a short time before eating, gives vigor to the appetite, and makes food digest well.

One dose, often repeated, cures chronic diarrhea, in its worst forms, while summer and bowel complaints yield almost to the first dose.

One or two doses cures attacks caused by worms, while for worms in children, there is no surer, safer and speedier remedy in the world, as it never fails.

There is no exaggeration in these statements. They are plain and sober facts, that we can give evidence to prove, while all who use it are giving their unanimous testimony in its favor.

We wish all who are sick and debilitated to try this remedy, and test it thoroughly, and any who are not benefitted by its use we should like to hear from them, as we have yet to hear from the first person who has used a bottle of Invigorator without receiving benefit, for there are such astonishing medicinal virtues in it that all, no matter how long they have been affected, if their complaint arises from a deranged liver, will be benefited if not entirely cured.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.

TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each case.

Sold by Dr. H. A. BARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 157 Prince Street, (a few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 5 o'clock till 8 in the evening. (Sundays excepted.)

TRIESEMAR No. 1—Is the remedy of general and local debility, loss of vital power, premature decay, and all the distressing consequences arising from early abuse, &c.— all physical impediments vanish like magic before its influence, thus rendering its use invaluable to those entering the marriage state.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copaiva and cubebs have so long been thought an antidote for, to the ruin of the health of a vast portion of the population.

TRIESEMAR No. 3—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury, to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in tin cases and divided in separate doses, as administered by* Valpeau, Laleman, Roux, Ricard, &c. &c. Price $3 each, or four cases in one for $9, which saves $3, and in 27 cases, whereby there is a saving of $9.

Special arrangements have been made with the various Expresses, the nine-dollar cases of the Triesemar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three-dollar cases sent as usual, but not free of carriage.

ANTAGONISTIC

To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

Member of the Royal College of Surgeons (1827), Licentiate of the Hall (1824), and 28 years Medical Referee, &c.)

Radical Regenerator,

FOR SEMINAL WEAKNESS,

In all its forms, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Virility, Impotency, and all diseases arising from early indiscretion.

This excellent Remedy, discovered by the world renowned DR. CULVERWELL, in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues. Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical, surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be risked, were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by *one* person would, through recommendation, result in an eventual sale to many.

DR. CULVERWELL's admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded by mail, free of postage, to any part of the country. Address, Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 158 Grand-St., New York, Sole Agents for the United States and Canada. Nov. 19. d&w1y.
